DIRECTIONS FOR USE:

Pots, Pans, Utensils: Use 1/2 to 1 oz. BURST for every 3 gallons of water. For heavy soiled pots and pans, put 1/2 BURST in the sink. Fill above soil line with warm water and soak for 10 minutes. Rinse all items with clean water.

Glassware: Best results are obtained where 2 or 3 compartment sinks are used for washing, rinsing, and sanitizing, respectively. Use 1/2 oz. BURST per 3 gallons of water for washing.

For best suds stability, place BURST in empty sink first and add warm water under full pressure.

SAFETY:

Read label carefully before use. For industrial and institutional use only by trained personnel. Keep out of reach of children. For further information, consult GHS Safety Data Sheet.
