CLEANING SOLUTIONS FOR THE HEALTH OF YOUR BUSINESS.

CONQUEST II

Alkaline Laundry Builder

CONQUEST II is a “power plus” alkali that can handle the hardest cleaning jobs. Designed for a variety of conditions, this product contains water conditioners for added detergency and hardness control. CONQUEST II prevents fabrics from yellowing and promotes uniform bleaching activity. This alkali mixes quickly in washers, reducing valuable wash time. This can be very important to tunnel/CBW washing type machines.

Powers out dirt and stains.

Maximum washing efficiency.

Superior emulsifying.

Sequesters hard water.
